Trados Studio Level 2 eLearning Working with PerfectMatches

This course aims to provide an understanding of what PerfectMatch means including how to handle an update project with PerfectMatch.

TARGET AUDIENCE

This course is designed for users who already have some experience using Trados Studio and would like to improve their knowledge of handling updates to projects with PerfectMatch. Please note that the PerfectMatch feature is exclusively available within Trados Studio's Professional Edition.

LEARNING OBJECTIVES

This course will give the learner a deeper understanding of how to handle updates to projects with PerfectMatch including configuring PerfectMatch during project creation, handling PerfectMatches in the Studio Editor, and the various PerfectMatch settings.

COURSE DURATION

The course is 30 minutes in duration and can be viewed and then used as a post-course reference tool.

DELIVERY

This eLearning course is hosted in our RWS University learning portal. Each user will be given individual access to the course and will be able to take it at their own pace.

COURSE DETAIL

The course will cover the following topics:

- Configuring the PerfectMatch batch task and matching the updated documents to the previous SDLXLIFF file during project creation.

- Viewing the PerfectMatch and Analyze Files reports.

- Understand the differences between PerfectMatches and Context Matches

- Handle PerfectMatches in the Studio Editor.

- Setting up and applying PerfectMatches, ignoring character formatting, to increase leverage.

- Unlocking and editing PerfectMatched segments.

- Setting up and applying PerfectMatch without locking segments.
