RWS

Trados Studio Level 2 eLearning Using Neural Machine Translation

This eLearning course provides an overview of what Neural Machine Translation is, and how to configure and use it in Studio and in the cloud.

TARGET AUDIENCE

This course is for translators who already have some experience using Trados Studio and want to improve their expertise in the use of the product.

LEARNING OBJECTIVES

This eLearning course will illustrate how to set up Language Weaver or connect to third-party providers and use them during translation. It will also show you how to access and use Language Weaver and third-party providers in the cloud.

COURSE DURATION

The course is 40 minutes in duration and can be viewed and then used as a post-course reference tool.

COURSE DETAIL

The course will cover the following topics:

- About Neural Machine Translation
- Setting up a sample project with an NMT provider
- Using NMT while translating
- Pre-translating with NMT
- Connecting to third-party providers in Studio
- Using NMT providers in the Studio cloud environment

DELIVERY

This eLearning course is hosted in our RWS University learning portal. Each user will be given individual access to the course and will be able to take it at their own pace.
